CANGINI E TUCCI

Cangini e Tucci, 扎根过去, 着眼未来

48

Cangini e Tucci 于 1961 年在意大利切塞纳成立, 从事吹制玻璃行业, 工艺精湛, 一丝不苟, 也生产精致的礼品和珍贵的家具配件。近年来, 公司将重心放在生产各种照明产品上, 范围涉及古老的威尼斯艺术到设计的应用、最现代的美学准则和最新的生产技术。

“内部生产这一环节突出了我们公司及创意引擎的巨大优势, 我们一直在建设和维护内部生产, 培训新员工, 专注机

器的质量和创新。因此, 我们能够迅速将设计师的意见或技术部门的想法转化为原型。这样, 我们就能很快制作出 1:1 比例的模型, 随时可以进行测试。

”Pietro Tucci 这么说道。他是公司的核心人物, 正努力将接力棒传给他的儿子, 第三代继承人。“我们是家族企业, 我们觉得自己是意大利制造的一部分, 而意大利制造是由质量、细节和我们近乎疯狂地关注的细节组成的。我们希望为

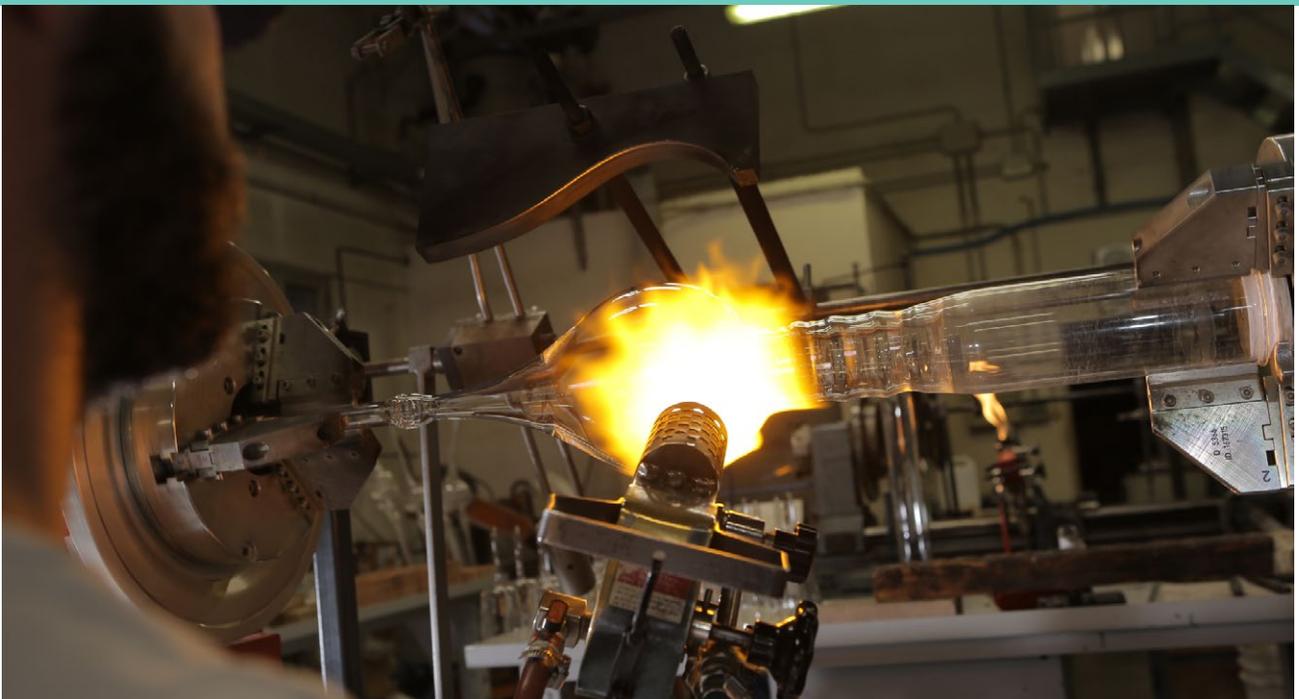

Cangini e Tucci, roots in the past and an eye to the future.

Cangini e Tucci was founded in Cesena, Italy in 1961 and operates with meticulous precision craftsmanship in the blown glass sector, producing refined giftware and precious furnishing accessories. In recent years, the company's attention has focused on producing a wide range of lighting items, starting from the ancient Venetian art to the application of design, the most modern aesthetic canons and the use of the most up-to-date production techniques.

“The great strength of our company and its creative engine is undoubtedly the production, which is in-house

and which we have always been building and taking care of, training new recruits and focusing on quality and innovation of machinery. This gives us the ability to very quickly translate the input that comes to us from designers, or the ideas that arise within our technical department, into prototypes. We then manage to have 1:1 scale models that are ready to be tested, very quickly.”

So says Pietro Tucci, who is the soul of the company and is working hard to pass the baton to his sons, the third generation. “We are a family-run business and we feel part of that Made in Italy which is made of quality, details

客户提供独一无二、质量无可挑剔的产品。”

毋庸置疑, Zoe是该公司生产的最经典的灯具,也是市场上最受欢迎的灯具。造型优雅简洁,其特点是采用双向玻璃,适用多种颜色和饰面。Zoe有不同的型号,最小的直径只有16厘米,最大的直径可达45厘米。

Cangini e Tucci 的灯具为手工制作,既使用了非常古老的技术,又展现了世上先进的 LED 技术。这两个方面体现了公司的特点:一方面是传统、手工艺和手工玻璃,另一方面是与照明技术相关的技术研究,尤其是 LED 技术。

Cangini e Tucci 的灯具,玻璃的造型十分出彩,同时保障了照明性能,无论是从光源发出的光量角度还是从质量角度来看都是如此。

这就是Cangini e Tucci的全部:扎根过去,放眼未来。

and details that we take care of almost maniacally. This is because we want to offer our customers a unique and qualitatively impeccable product.”

Zoe is undoubtedly the most iconic lamp produced by the company and the most popular on the market. An elegant and very simple shape, characterized by the double-chamber glass and the possibility to play with a large amount of colors and finishes. Zoe exists in different versions, from the smallest which has a diameter of only 16 cm, to Zoe Max which is the largest and has a diameter of as much as 45 cm.

Cangini e Tucci's lamps are handcrafted and use very old techniques, but at the same time they bring with them very advanced technologies in the world of Led. The company is precisely characterized by these two souls, on the one hand tradition, craftsmanship and handmade glass, and on the other hand technological research related to lighting technology and, above all, to LED.

Cangini e Tucci's lamps are wonderful glass sculptures but at the same time they are able to guarantee a very high lighting performance, both from the point of view of the quantity of light emitted by the sources and from the point of view of quality.

This is what Cangini e Tucci is all about: solid roots in the past and a gaze well into the future.
